ENVISION YOUR SMILE!

Your smile is one of the most important communication tools you have. When you smile you not only connect with those around you, you make yourself feel good too. But when you don't smile – when you hide your smile behind your hand or stop your smile before it blooms because you are ashamed of your teeth – well, that is simply unhealthy.

I should know. I have been there. My own teeth were unhealthy and unattractive and I experienced severe discomfort from a bad bite. I never let myself smile a full and open smile. I never believed that I could.

The truth is, my ideal smile was right there, hiding, waiting to be uncovered and released through the miracles of modern dentistry.

I can't wait to share my experience with you. My patients are overjoyed at the changes cosmetic, restorative and neuromuscular dentistry have made in their smiles – and in their lives.

ENVISION

A DIFFERENT KIND OF DENTISTRY

I can relate to my patients, especially those who have fears about dentistry or are worried that they may be judged for the condition of their teeth. My staff and I have worked hard to create an atmosphere of acceptance and warmth, to make a dental office that feels more like home than a clinic.

We also believe that our patients should be as educated as they want to be about what is going on in their mouths and what we can do for them – that they should be in charge of what is happening every step of the way. That's why my staff and I take so much time with you, as much time as you feel you need, discussing what you want and what you are concerned about.

ENVISION

LASTING STRENGTH & BRILLIANCE

Every service we offer at Envision Dental is highly specialized so that we can get right to core of your dental issue to repair, restore and renew from the bottom up. We never offer you a temporary fix that will bring you back for further repair. Though treatments are often completed quickly, your treatments are individually designed and engineered for strength, longevity and a perfectly natural look.

Whether you are missing teeth or simply want a brighter, whiter smile, we can devise a simple and comfortable treatment plan just for you. We offer everything you need for a whole and healthy smile:

- Smile Makeovers
- Full Mouth Restoration
- Whitening
- Porcelain Veneers
- Hygiene Care
- Periodontal Treatment
- Restorative Care
- Cosmetic Crowns, Bridges and Dentures
- Implant Dentistry
- TMJ Treatment
- Sleep Apnea Solutions

ENVISION

YOURSELF RELAXING THROUGH EVERY TREATMENT

I have been through a lot to get to my own ideal smile. I know how fearful patients can feel about dentistry and how difficult it is for some people to even become numb through traditional anesthetic methods. I don't want anyone to have to deal with that discomfort.

To solve this issue for my patients, I have taken special, advanced training and am a provider of sedation dentistry. With this training I can offer the most comfortable, easy journey through every treatment. In fact, sedation makes dentistry so comfortable, that in one single visit we can often complete procedures that would normally take up to five or more sittings!

This is an ideal option for anyone who has trouble sitting still for extended periods, those who have trouble getting numb and is especially helpful to anyone with dental phobias or anxiety.

With sedation dentistry you can enjoy having a beautiful smile and never remember a moment of pain or discomfort at all!

ENVISION YOURSELF IN GOOD HANDS

I had spent most of my young life without ever visiting the dentist. In college, while studying for finals, I came down with a terrible toothache. I was very nervous, but the pain forced me to make an appointment. I ended up having a tooth pulled.

Through the years, I have experienced almost every type of dentistry that a person could have: root canals, crowns, bridges and porcelain facings. I've even had dental treatment to relieve headaches and jaw pain.

I realized then that I could help others with situations similar to mine. After graduating from the University of Detroit Dental School, I dedicated myself to providing the best possible treatment to every patient. I also realized that advanced education was crucial to offering quality care. I have studied smile makeovers and headache treatments at the world-renowned Las Vegas Institute for Advanced Dental Studies and have been recognized as a preferred LVI provider. To help patients who are as nervous as I was, I have taken courses in providing conscious sedation, and I have earned a prestigious Fellowship in the Academy of General Dentistry.

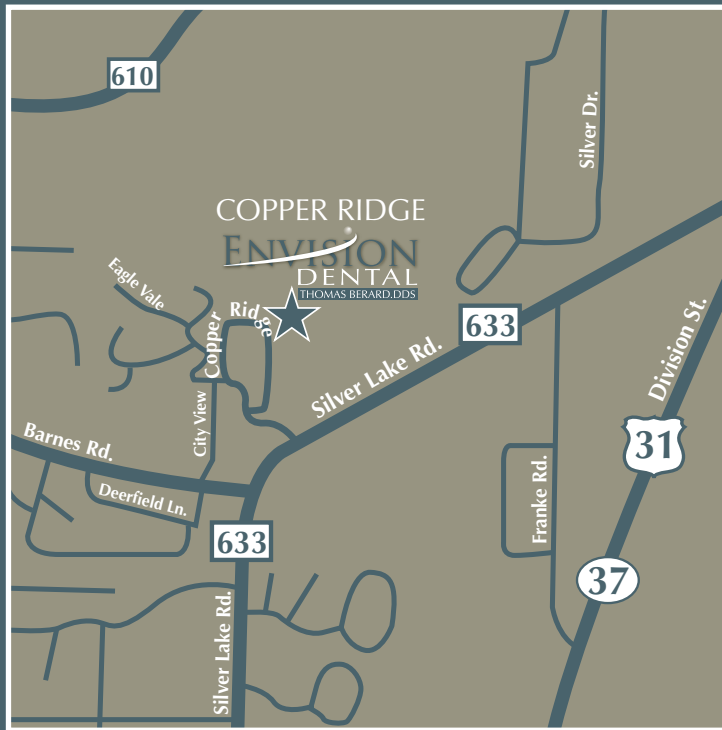

I have been a dentist in Manistee for over 20 years. I belong to the Academy of Cosmetic Dentistry and the International Association of Comprehensive Aesthetics.

When not at the office, I enjoy spending time with my wife, Janet, and children, Janique and Jarrod.

Let's get together and discuss your unique dental needs and desires – I look forward to getting to know you better.
